KSHITIJ DHYANI

emailofkshitijdhyani@gmail.com/623-268-9886 Portfolio: kshitijdhyani.com Github: github.com/wimpywarlord Linkedin: www.linkedin.com/in/kshitijdhyani

SKILLS SUMMARY

• Languages: JavaScript (ES5/ES6), Python, C, Typescript, C++, CSS, HTML, PHP, JSON and Java. Express, Node.js, MongoDB, Vue.js, React.js, Flutter, Next.js, GraphQL, Firebase, MySQL • Frameworks: Git, AJAX, RabbitMQ, AWS, REST APIs, Linux, Material UI, Docker, Jira, Kubernetes, Azure • Tools: • Skills: Front-end, Agile, Back-end, Unit testing, Micro-services, CI/CD, SCRUM, Kanban, DevOps

Experience

Washington University in St. Louis - Machine Learning & Data Engineer

May 2024 - Present

- Missouri, U.S.A
 - Fine Tuned: a large language model (LLM) using GEN-AI frameworks such as LangChain, OpenAI, FAISS.
 - Visualized: past 200+ years of judicial records. Curated extensive data sets. Employed data analysis measures to predict judicial decision making behaviour. Utilized statistical modeling methods to model judicial activism.

Decision Theater - Arizona State University - Software Engineer Arizona, U.S.A

September 2022 - May 2024

- Optimized: legacy code implementations accelerated software performance by 20%. Scaled products leveraging Typescript, React.js, Vite, Mongoose, Docker, Redux, K8s for horizontal scaling, and BitBucket for version control.
- Built: and led design, development, and maintenance of scalable and high-performance products E2E from identifying system requirements to software implementation, testing, and configuring metrics, alarms, monitors, and dashboards.
- Deployed: and integrated a multi-staged CI/CD pipeline with version locking and roll-back capabilities, performed code review, curated documentation, implemented load/stress testing, and unit/integration/e2e testing.

Rivian Automotive - AI Engineering Intern

May 2023 - December 2023

- Illinois, U.S.A
 - Developed: and collaborated with a team of 9 people and enriched existing system metrics by 17%. Increased projected annual revenue by \$1.3 million by implementing optimized business logic through code.
 - Developed: and designed scalable, distributed, low latency, and high throughput fleet management systems with continuous integration and deployment capabilities. Harnessed K3s, Docker, OAuth, Terraform, and Node.js.
 - Deployed: a total of 133 vision solutions across the factory, reduced cycle-time by 23%. Designed platform and service architecture employing enterprise integration patterns. Adopted AWS, TensorFlow, PyTorch, and Firebase.
 - Engineered: the UI/UX of software products using user-centric design methodologies. Integrated A/B testing to validate design changes which led to a 19% increase in user retention and a 14% increase in user engagement.

Bluesapling Technology Pvt Ltd - Software Developer Banglore, India

March 2020 - August 2022

• Resolved: 7+ distinct performance bottlenecks in a distributed software architecture for large-scale deployments. Extended build system to integrate with cloud for higher cost efficiency, cutting cost burden to company by 17%.

Projects

- A M I G O S (APIs, MVC Design Patterns) (link): (User base of 2000+) Pairs students over a video chat-room for ice-breaking. Tech: Webpack, Tailwind CSS, NGINX, SCSS, jQuery, DOM Manipulation (October 2023).
- Good-morning Girlfriend (Automation) (link): Programmed a platform automating the delivery of daily greetings, enhancing UX and reducing user's cognitive load. Tech: Redis, SQL, AWS lambda, Javascript, and NPM (March 2023).
- B.Tech Blueprint (Cloud native systems) (link): (Facilitated more than 5000+ students) Implemented a blueprint to structure credits and subjects during B.Tech Degree. Total usage statistics upwards of 10000+ hours. Tech: Redux, EC2, Bootstrap, S3, HTTP, DynamoDB, JS Object Model, Babel and Cypress (January 2023).

EDUCATION

The Wharton School, University of Pennsylvania, Online

U.S.A

Artificial Intelligence for Business - Big Data, Artificial Intelligence, and Machine Learning

Present

Arizona, U.S.A

Arizona State University (ASU), Tempe

Master in Science - Computer Science - Data Structures and Algorithms, DBMS (CGPA 3.89)

August 2022 - May 2024

Vellore Institute of Technology (VIT), Vellore

Tamil Nadu, India

Bachelor's in Information Technology - Computer Networks, Operating Systems (CGPA 3.99)

July 2018 - May 2022
